INVENTORY NOTES

- This document is intended as a master inventory/checklist and should be reconciled against the actual physical equipment

PART-NUMBER NOTE

ARRI factory part numbers in this revision were cross-checked against ARRI Shop and ARRI TRINITY 2 configuration documentation. Where the retrieved official source did not expose a part number, the field is marked “VERIFY – ARRI code not yet confirmed” rather than using an unverified number. GPI PRO Titan, Walter Klassen custom vest and Bebob batteries are non-ARRI items and therefore have no ARRI factory part number.
